

Buying a Business

The Business Buying Process

Acquisition Finders is focused on finding opportunities for prospective business buyers. Our turnkey, proprietary process ensures that we leave no stone unturned in your journey to business ownership.

Our Hidden Gem Acquisition Search Process allows you to specify key elements of your desired business, such as industry, size and geography. Once we have the profile of the desired business, we personally contact prospective sellers and arrange appointments with your ideal target. Our services insure that we find the best possible business for you and your goals.
